

FX AWARDS 2022: JUDGES

The judging system

The FX International Interior Design Awards is open to architects, designers, clients and suppliers for interior design projects or products completed or launched between June 2019 and July 2022. The judges are independent experts who are recruited to form a fresh new panel each year, and comprise engineers, clients, architects and designers from many different sectors to reflect our audience. They were invited onto the 2022 panel because of their experience, opinions and commitment to design. Judges, and their companies, are not permitted to enter any categories.

Each category is judged by a different set of judges, so if you do not win in one category you could win in another. Because of the large number of entries, and to preserve the integrity of the FX Awards, we use a transparent system in which each judge ranks their top six entries in each category before they know who their co-judges are. With up to 10 judges for each of the hotly contested categories, these placings are then scored and added together to confirm the shortlist and the ultimate winner.

Many thanks to all our judges, who gave up so much of their valuable time and brought their expertise and enthusiasm to the process.

Adrian Norman
