The judging system

The FX International Interior Design Awards is open to architects, designers, clients and suppliers for interior design projects or products completed or launched between June 2022 and July 2024.

The judges are independent experts who are recruited to form a fresh new panel each year, and comprise engineers, clients, architects and designers from many different sectors to reflect our audience. They were invited onto the 2024 panel because of their experience, opinions and commitment to design. Judges, and their companies, are not permitted to enter any categories.

Each category is judged by a different set of

judges, so if you do not win in one category you could win in another. Because of the large number of entries, and to preserve the integrity of the FX Awards, we use a transparent system in which each judge ranks their top six entries in each category before they know who their co-judges are. With up to ten judges for each of the hotly contested categories, these placings are then scored and added together to confirm the shortlist and the ultimate winner. Many thanks to all our judges, who invested time on your behalf and brought their expertise and integrity to the process. It's a tribute to Cherrill Scheer, who died this year and has always supported Theresa on fairness and excellence at the FX Awards. RIP Cherry.
