The FX International
Interior Design
Awards would like to
thank our sponsors
and supporting
organisations

WELCOME

Good evening and welcome to our 25th celebration of your magnificent designs at FX.

We have invited 27 Judges of magnificent experience – the most we have ever had, to judge your entries. And they come from all different specialities, and experience to reflect the categories tonight. We have judges who are developers, architects, designers, engineers and product designers who have been invited this year because they care as much as I do about these awards.

And for our Outstanding Lifetime Achievement we have Hugh Pearman who has been championing your designs for years in the national press, on televisions, and in magazines worldwide – we've never had a design journalist receive this award before, but they are the unsung heroes in our industry, so it's a great privilege to award FX's highest award to Hugh Pearman. – who has been banging your drum and broadcasting your skills for years!

With so much support from you, as sponsors, as readers, as guests, and as participants in FX and the FX Awards, we have you to thank for this successful night.

Congratulations to all the finalists and indeed the winners. With fierce international competition, If you've won or been shortlisted tonight, you really are world class.

Theresa

Theresa Dowling, Editor FX

The judging system

The FX International Interior Design Awards is open to architects, designers, clients and suppliers for interior design projects or products completed or launched between June 2019 and July 2022.

The judges are independent experts who are recruited to form a fresh new panel each year, and comprise engineers, clients, architects and designers from many different sectors to reflect our audience. They were invited onto the 2023 panel because of their experience, opinions and commitment to design. Judges, and their companies, are not permitted to enter any categories.

Each category is judged by a different set of judges,

so if you do not win in one category you could win in another. Because of the large number of entries, and to preserve the integrity of the FX Awards, we use a transparent system in which each judge ranks their top six entries in each category before they know who their co-judges are. With up to ten judges for each of the hotly contested categories, these placings are then scored and added together to confirm the shortlist and the ultimate winner.

Many thanks to all our judges, who gave up so much of their valuable time and brought their expertise and enthusiasm to the process. Sincere thanks also to Cherrill Scheer, who will act in an advisory capacity as unofficial chair of the judges.
